

OKIKE VICTOR ODINAKACHUKWU

Full-Stack & Mobile Developer

Rivers State, Nigeria | +234 901 385 5062 | okikevictorodinaka@gmail.com

Professional Summary

Results-driven Full-Stack & Mobile Developer with 3+ years of experience building secure, scalable web and mobile applications using React.js, Next.js, Node.js, TypeScript, and React Native. Experienced in end-to-end feature delivery, RESTful APIs, payment integrations, authentication systems, and performance optimization. Focused on production-ready architecture, security best practices, and clean user experiences.

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT Authentication, HTTP-only Cookies, RBAC, API Security

Mobile: React Native (Expo), Firebase Push Notifications

Database: MongoDB, PostgreSQL

Payments: Paystack, Stripe, Webhook Verification, Idempotent Transactions

Tools: Git, GitHub, Postman, Vercel, Firebase, CI/CD

Professional Experience

Frontend Developer (Remote) | 2023 – Present

- Engineered responsive and accessible UIs with React.js, Next.js, TypeScript, and Tailwind CSS.
- Built reusable component systems that reduced frontend development time across multiple projects.
- Integrated third-party APIs and optimized state management for complex user flows.
- Implemented Framer Motion animations and micro-interactions to improve engagement.
- Collaborated with designers and backend engineers across remote teams and agile sprints.

Backend Developer | 2022 – 2023

- Designed secure RESTful APIs using Node.js and Express.js with optimized performance.
- Implemented JWT authentication, refresh token rotation, CSRF protection, and RBAC.
- Integrated Paystack and Stripe with webhook verification and transaction logging.
- Optimized MongoDB and PostgreSQL queries using indexing and schema improvements.
- Maintained API documentation and testing workflows using Postman.

Mobile App Developer (Remote) | 2022 – Present

- Developed cross-platform mobile applications using React Native and Expo.
- Integrated Firebase authentication, real-time sync, and push notifications.
- Improved startup speed and performance using optimization techniques and memoization.

Projects

Full-Stack E-Commerce Platform | Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a production-ready e-commerce platform with product management and real-time inventory tracking.
- Implemented secure JWT authentication with HTTP-only cookies and RBAC.
- Integrated Paystack and Stripe payment systems with webhook security and retry handling.
- Developed an admin dashboard for product, order, and customer management.
